e1ca968d-a66b-4c9b-be02-f3c0d2fa4858

Edit of the reference photo. Keep the same woman exactly (same face, nose, lips, hair, pose, profile angle, framing and crop). Change only the light and background: a deep, dark forest-green and warm umber studio background, and a warm golden side light falling on her face, cheekbone, neck and shoulder so the light visibly glows and bounces off her skin, with soft warm highlights and gentle falloff into shadow. Dark but hopeful, calm, intimate, cinematic film look with fine grain. Not gloomy, not gothic, no pure black. No text, no logos.

Edit of the reference photo. Keep the same woman exactly (same face, nose, lips, hair, pose, profile angle, framing and crop). Change only the light: late-afternoon sunlight filtering through leaves now falls across the scene as soft, blurred dappled leaf shadows on the background wall, her neck, shoulder and the side of her face, with warm amber patches of light between the shadows. The overall image is darker and moody but warm and hopeful, deep green and umber tones, film grain. No text, no logos.

f52ad011-27cd-41ee-a196-d36ba4823ab4

Edit of the reference photo. Keep the exact same composition: the same Los Angeles skyline at the same size and position, the same palm tree silhouettes, the same horizon height. Change only the time of day and colour: soft dusk, the sky a calm gradient from lavender and dusty violet at the top to a faint warm rose at the horizon, a quiet purple-blue ambience, the first city lights twinkling. No red or orange sunset. Calm, dreamy, film grain. No text, no logos.

Photograph of the Galata Tower in Istanbul rising above terracotta rooftops, seen from a nearby rooftop terrace at golden hour. The tower fills the upper-middle of the frame, warm low sun on its stone, a soft peach and pale blue sky above. The lower 40% of the frame is calm, softly out-of-focus rooftops and a terrace ledge in warm shadow, quiet enough for text. Kodak Portra 400 film look, fine grain, warm and calm, editorial travel photograph. No people, no readable text, no signs, no logos.

c3ff3938-2918-4b7f-8af1-cf56cc1c082e

Photograph of the Hagia Sophia in Istanbul in warm early-evening light, its great dome and four minarets glowing softly, seen from a garden with plane trees and a fountain in the foreground. The monument sits in the upper half of the frame against a soft apricot and lilac sky. The lower 40% of the frame is calm garden path and soft shadow, quiet enough for text. Kodak Portra 400 film look, fine grain, warm, calm, editorial. No people, no readable text, no signs, no logos.

ff6f3033-4c6c-440f-9829-fa426af972e4

Photograph of the Blue Mosque (Sultan Ahmed Mosque) in Istanbul at blue hour, its cascade of domes and six slender minarets lit warmly from within and below, a deep dusky violet-blue sky with the last warm glow near the horizon. The mosque sits in the upper-middle of the frame; the lower 40% is a calm, dark, softly lit plaza, quiet enough for text. Film look, fine grain, serene. No people, no readable text, no signs, no logos.

fcc5a504-3722-4019-b062-742f96caa080

A photograph in exactly the same style, colour grade, sky and composition as the reference, but the view is the Pacific Ocean from a bluff on the Los Angeles coast at golden hour: calm sea, a perfectly flat horizon at exactly the same height as the skyline in the reference, a few tall palm silhouettes at the lower edge, the same warm peach and dusty-rose sky with the same thin band of cloud. No city, no people, no boats, no text. Kodak Portra film look, gentle grain.

20cf6d18-9de1-4899-9b4f-a2fd6423266d

Edit of the reference photo. Keep the man exactly the same: same face, hair, white linen shirt, pose, the plate and towel in his hands, his position and size in the frame. Replace only the room around him: a calm kitchen with deep dusky-blue walls and cabinets, evening light, and a large window behind him showing a leafy suburban street with tall old trees and brick and clapboard houses, all softly out of focus. The whole background is gently blurred with a shallow depth of field so he stays sharp. Warm light on him, cool blue room, cinematic, film grain. No text, no logos.

Edit of the reference photo. Keep the same person exactly: same face, eyes, nose shape and size, lips, skin tone, hair, clothing, pose, head angle, framing and crop. Change only the background and the light: a plain near-black warm charcoal studio backdrop (deep brown-black, not pure black) and a soft warm key light from the side, so the face glows gently while the shoulders and body fall softly into shadow. Natural skin colour and real skin texture. Quiet, calm, hopeful editorial studio portrait, 35mm Kodak Portra film look with fine grain. No text, no logos.
